## HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance: The claims are drawn to methods of identifying candidate drug compounds that bind to the catalytic domain of the human protein tyrosine phosphatase beta (HPTPbeta). The method utilizes *in silico* screening of candidate compounds by employing the three-dimensional structure of the catalytic domain of said HPTPbeta (SEQ ID NO: 7), which has been characterized by as two different three-dimensional structures (e.g. Figures 7-102 and Figures 202-252) both of which are apo- structures, wherein the former (Figures 7-102 ) is derived from monoclinic crystals, the later derived from orthorhombic crystals (Figures 202-252). The three-dimensional structures and specifically the noted and identified binding pocket residues as limited in the claims are not taught in the prior art nor are they obvious over the prior art. While the main focus in the prior art has centered around the well known human protein tyrosine phosphatase 1B protein, little is known about the catalytic binding pocket of the HPTPbeta enzyme. Thus, utilizing the structural coordinates as outlined in claims 25, 26, 33 and 35 are both novel and non-obvious over the art of record. **Thus, claims 26-33 and 35 are allowed.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
